

Welcome home move-in Kits

NEEDED

Most low-income families and individuals who are transitioning from homelessness to housing have few possessions. They include asylum-seekers & refugees, seniors, Veterans, or people with disabilities. You can help them create a cozier home by building a Welcome Kit.

Choose a category below, place the items in a clear plastic bin, and label the top of the container with the type of kit. Please purchase new items and don't tape the tub closed. If all items don't fit in the tub – no worries. Please tape to the top or bring alongside. We encourage you to include a handwritten, unsealed welcome note. **Thank you for your care for our new neighbors!**
